Manufacturer and dealer introduction

Boat range and proposed export collaboration

POEM 300 GT underway · 4K Marin model photography

Built in Türkiye

4K Marin builds console boats and cabin cruisers in Tekirdağ, Türkiye. This introduction presents the four-model range and a starting point for discussions with prospective dealers and importers.

Discuss your market, model selection and equipment requirements directly with our team. Each proposed order is subject to a model-specific quotation and agreed written terms.

4.95 XE / 5.55 XF / 7 Weekend / POEM 300 GT

Meet the manufacturer

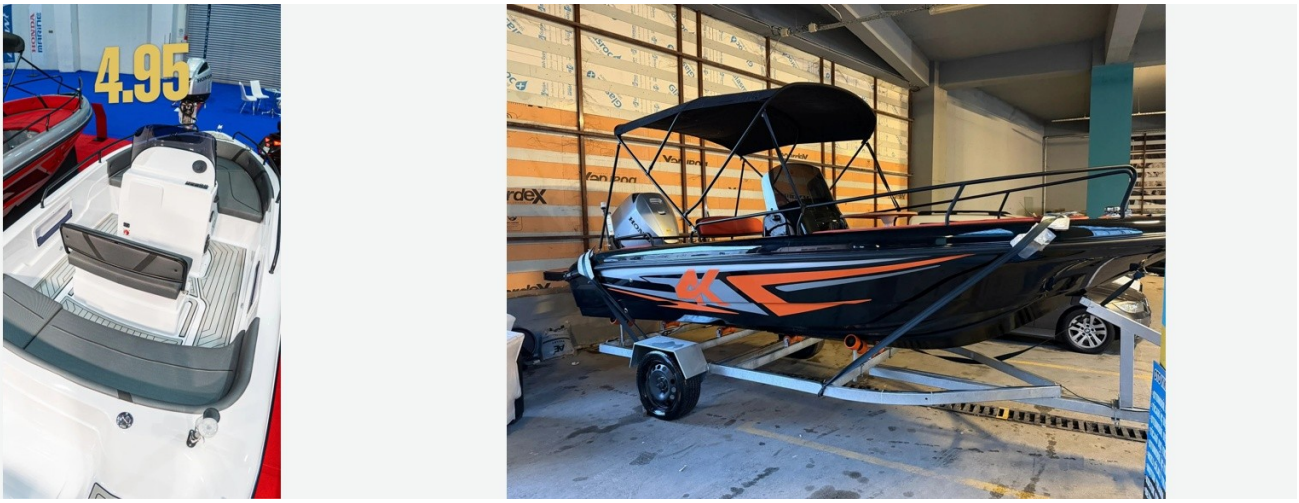

Dört K Grup Turizm Tic. Ltd. Şti.
Baraj Yolu Destan Sokak No: 26, Velimeşe OSB
Tekirdağ, Türkiye

Factory visits are arranged in advance. Contact us to discuss the models you would like to see and a suitable time.

Console boats

4.95 XE and 5.55 XF

Left: 4.95 XE console at a boat show. Right: 5.55 XF indoors, from the 4K Marin archive.

4.95 XE

A compact console boat with a seating-focused layout. Contact 4K Marin for its current technical sheet, engine compatibility and confirmed equipment specification.

5.55 XF

Hull length	Beam	Boat weight	Draft	Maximum power
5.55 m	2.10 m	700 kg	0.30 m	115 hp

Selected standard equipment: 130 L aluminium fuel tank, 60 L freshwater tank, premium cushion set, automatic bilge pump, pressure water and shower system, telescopic boarding ladder, synthetic teak and bimini top.

Listed option: T-top. Ask us to confirm the full optional equipment list for your quotation.

5.55 XF official equipment sheet

Dimensions and equipment are from the current manufacturer sheet. Final specification is confirmed in the quotation. Photographs may show additional equipment.

7 Weekend

Cabin cruiser

7 Weekend at the coast · 4K Marin model photography

Hull length	Overall length	Beam	Boat weight
6.33 m	7.00 m	2.55 m	1,250 kg
Draft	**Maximum power**	**Fuel tank**	**Freshwater tank**
0.60 m	250 hp	210 L	180 L

Selected standard equipment

Cabin and electric toilet, electric windlass, 6 kg chrome anchor with 50 m galvanised chain, built-in hob, 12 V marine refrigerator, synthetic teak decking and an upholstered L-shaped fibreglass sofa.

Selected options

Enclosure cover, batwing awning, solar panel and starlight ceiling. Availability and the final configuration are confirmed in the quotation.

7 Weekend official equipment sheet

Boat weight is the listed boat-only figure. Equipment and specifications may change subject to production conditions. Photographs may show additional equipment.

POEM 300 GT

9.80 metre sport cruiser

POEM 300 GT underway · 4K Marin model photography

Hull length	Beam	Draft	Weight without engine
9.80 m	3.45 m	0.60 m	3,500 kg
Fuel tank	**Freshwater tank**	**Wastewater tank**	**Greywater tank**
480 L	280 L	105 L	105 L

Living spaces and listed equipment

Master cabin and guest cabin with double berths, saloon seating and telescopic table, helm station, hob, refrigerator, bathroom with electric marine toilet and shower, electric windlass and bow thruster.

Selected options

Water heater, generator, sunroof, solar panel, air conditioning, enclosure cover and batwing awning. Confirm the full equipment scope and engine configuration with your quotation.

POEM 300 GT official equipment sheet

The manufacturer sheet lists equipment and optional equipment separately. The signed order specification governs the agreed scope. Photographs may show additional equipment.

Discuss dealer collaboration

A proposed route from initial enquiry to agreed delivery

Tell us about your company, country and customer base. We can discuss the models that interest you and whether a commercial arrangement fits both businesses.

1 Choose the models

Select the models you would like to discuss and describe their intended market and use.

2 Define requirements and request a quotation

Share destination country, quantities, engine preferences and equipment requirements. Request a written quotation with a clear scope.

3 Agree the order terms

Confirm the specification, price, payment terms, responsibilities, documents and expected schedule in writing before an order proceeds.

4 Coordinate production

Agree the production arrangements and how configuration decisions and updates will be handled for the order.

5 Agree shipment and delivery

Confirm transport arrangements, delivery point and the allocation of export and import responsibilities in writing.

This is a discussion framework, not an offer or a dealer appointment. Commercial terms, territory arrangements, delivery timing and any support obligations require separate written agreement.
